RE: Traffic improvements on Grey St and Parking Restrictions on Ferguson St, Robe st and Northcote Dr-C03/14

Dear Resident

Roads ACT, which is part of TAMS Directorate, is responsible for providing traffic and parking controls throughout the ACT, as well as monitoring and reviewing their effectiveness.

Concerns have been received by the local community about the traffic congestions and unsafe parking practices on the residential streets around Canberra Girls Grammar Schools.

As a result, Roads ACT has committed to some improvements along Grey Street such as children's crossing near the intersection with Ferguson St, log barriers to prevent a parking on the verge near the Early Learning Centre and improvements with the signage. In addition, parking restrictions during peak morning and afternoon school hours are proposed to improve the serviceability of your street. Please see the overleaf for the parking changes proposal.

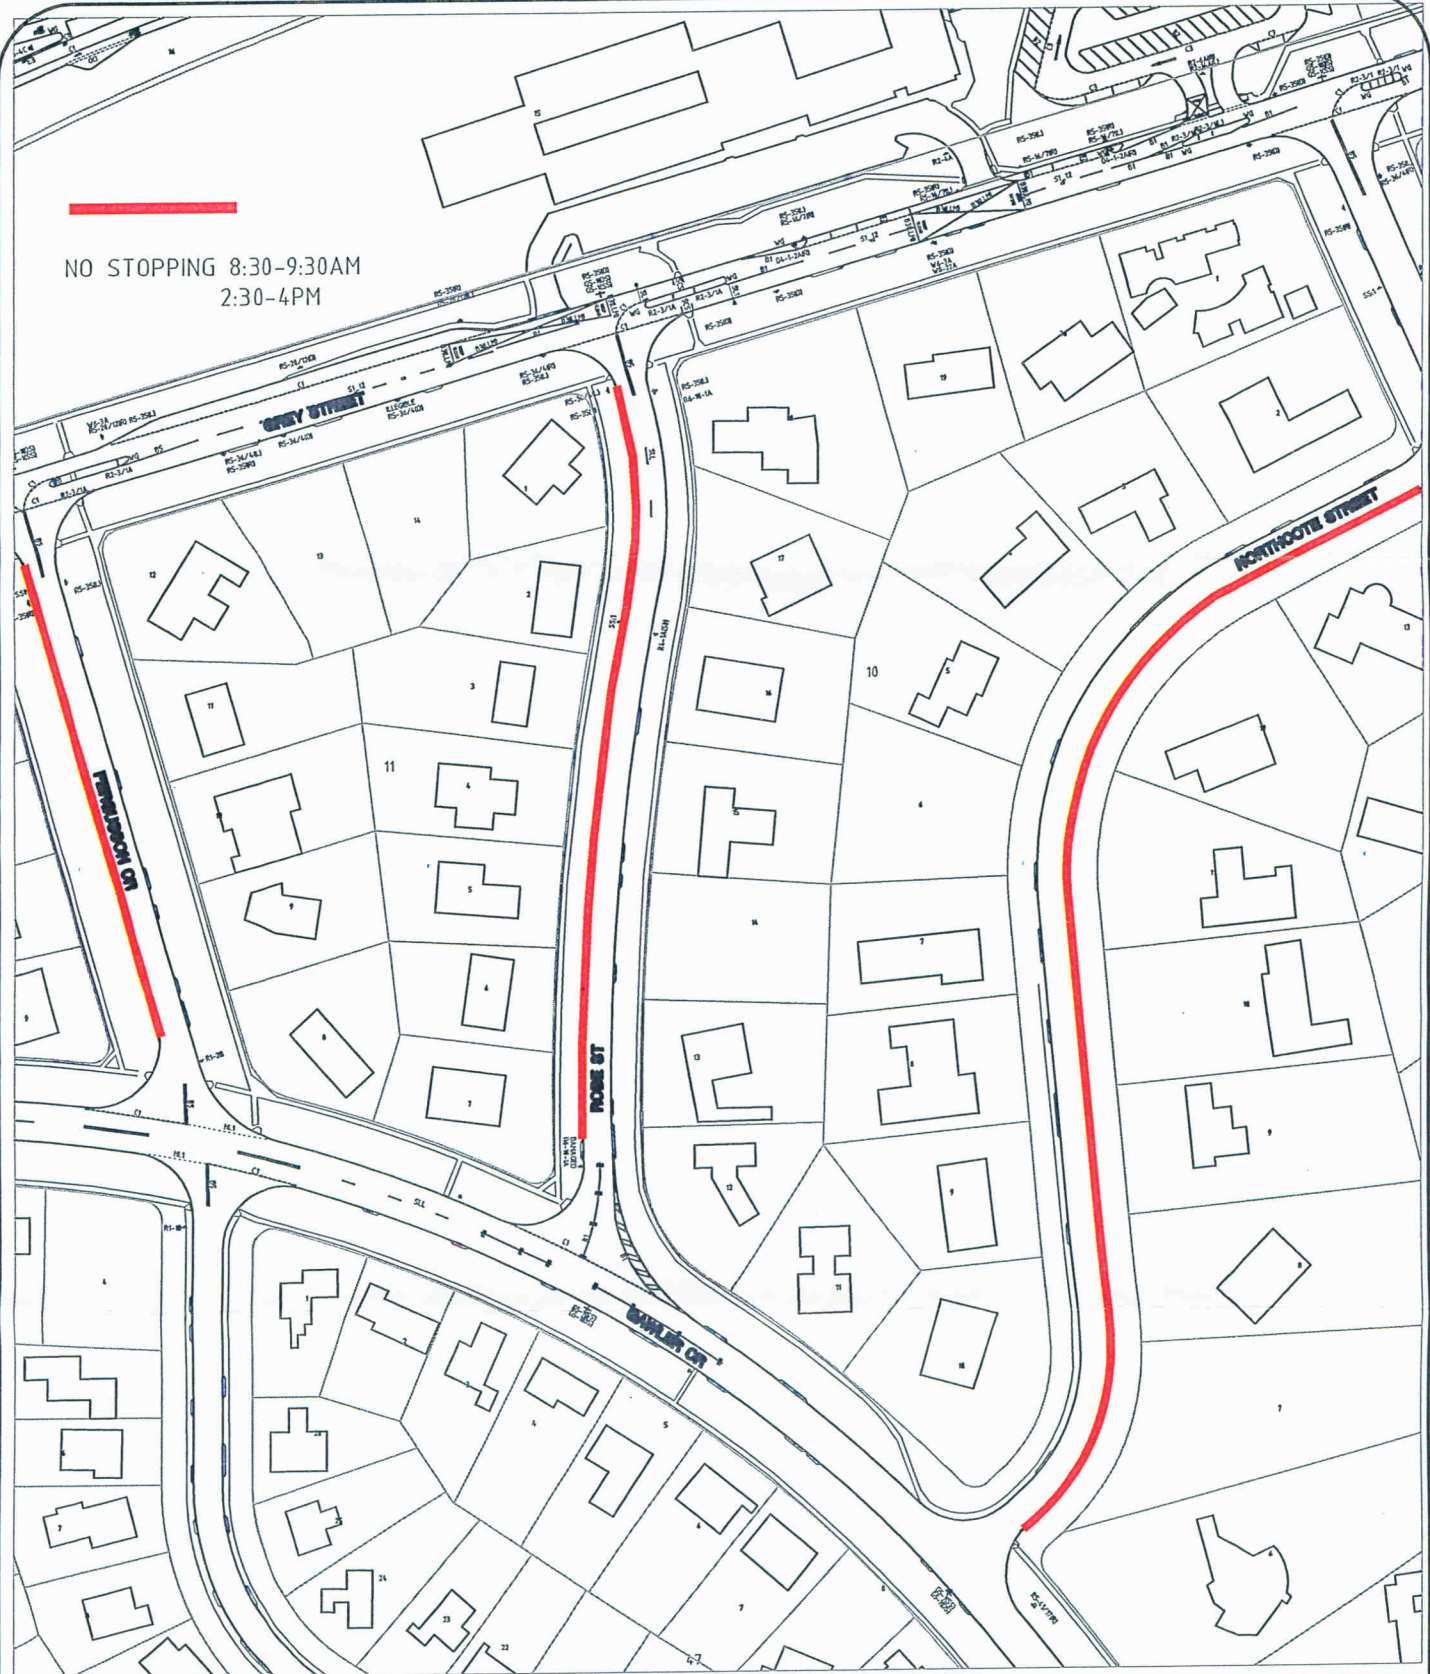

Should you have any comments or concerns like to discuss further, please contact Ms Snezana Dimitrovska on 6207 6570 or by mail on snezana.dimitrovska@act.gov.au by Friday 31 January 2014.

Yours sincerely

Robyn Hawkins
